**UNWANTED GUESTS ?**  
For Fast Responsible Service  
**(650) 638-9029**

## ANIMAL DAMAGE CONTROL

As state-licensed contractors, we can help prevent or repair animal damage to your home or business.

**Detailed property inspections and assessment of problems conducted inside and outside the home or business**

- foundation vents, roof jacks and chimney caps repaired or replaced.
- one-way doors installed to facilitate nuisance animal departure.
- garage-door weather stripping installed.
- crawl space doors and utility meter doors rebuilt.
- decks, spas and mobile homes perimeters screened.
- underground fencing installed to stop burrowing animals.
- roof pockets, recesses, tile openings closed.
- damaged roof shingles replaced.
- animal droppings & nesting materials removed from and crawl spaces.
- animal carcasses located & removed.

## ANIMAL TRAPPING & REMOVAL

Our state-licensed animal trappers can humanely capture and remove wild animals from the public's property in order to protect their health and safety. Diseases such as rabies, plague, hanta virus, leptospirosis, rat bite fever, or roundworm parasites can be avoided by preventive action.

Humane trapping can also serve to protect the family and its pets against attacks ranging from coyotes, raccoons, and other predators to ectoparasites such as rodent mites and fleas.

In addition to the damage to structures, damage to lawns, fish ponds, prized ornamentals, and stored possessions can be prevented by the trapping, repelling and/or exclusion of such damage-causing culprits as:

**raccoons \* skunks \* tree squirrels \* rats**  
**coyotes \* opossums \* bobcats \* gophers**  
**moles \* ground squirrels \* deer \* feral cats**

## OTHER RELATED SERVICES

- overhanging tree branches cut back to reduce animals' access to the roof
- pond fish protected against predators by low amperage electric wires
- offensive odors removed and contaminated area disinfected

## PEST BIRD CONTROL

We can prevent pest birds from perching, nesting, roosting or loafing on or around your property.

**pigeons \* starlings \* sparrows \* swallows**  
**seagulls \* canada geese \* crows \* ravens**  
**turkey vultures \* woodpeckers \* waterfowl**

- bird netting installed in various shapes, sizes and colors
- building ledges treated using tacky gel, spikes, coils, wires, or electric track
- rooftop live bird traps installed and serviced
- bird waste cleaned from building facades, rooftop A/C units and walkways
- bird hazing and scaring devices installed

## **Certified Installers of Bird Barrier Products**

### Bat Exclusion and Removal

Bat exclusion and removal services are provided only after juvenile bats have left the structure and are able to hunt for their own food. This window of opportunity is provided Mid-September to mid-March

## PROPERTY CLEANUP

Urban Wildlife Management, Inc. has teamed up with Peninsula Community Services, Inc. to address the subject of obsessive compulsive hoarding.

Urban Wildlife's crews clean up these homes and also those properties with a history of stark and prolonged neglect.

Hired by property managers, public and private conservators, realtors, code enforcement officers, social workers and others, our cleanup crews prepare these distressed properties either for occupancy by the current resident or for sale to a new owner.

The house interiors are washed, sanitized and deodorized with minor repairs performed. Public health and building code violations are remedied. Trash and yard cuttings and other unwanted items are placed in debris boxes or are taken to the public dump.

**\* We give special attention to the individualized needs of our customers.**
